Coaching and Junior Development report

Coaching Clinic at Women's Minor at Toukley

I conducted a clinic for the ladies during the Minor Championship at Toukley. It was a group clinic for all the entrants and was received very well with lots of interest and questions during the hour session.

Coaching Clinic at Women's event at West's Illawarra

I was on hand for 3 hours during the wonderful event at Wests Illawarra and conducted some 1 on 1 sessions as well as a group session. The ladies all had great enthusiasm to learn and ask questions and seek better knowledge for their game. A great event and credit to Carlie for managing it and making it the success it was.

Coaching Induction Clinic Blacktown Workers

I held a coaching Induction for 3 new NSW coaches at Blacktown Workers Club.

Mark Harper

Mal Winter

Christopher Shaw

I went through the entire White to Black program with the new coaches and explained each level and demonstrated the drills and how best to conduct themselves with their students. It was a very good clinic and I have more planned in near future at venues like Gosford RSL and Club Foster.

It is my aim to keep expanding the number of coaches in NSW and provide more options for people wanting to learn to play snooker and improve if they already play.

Interest in purchasing Junior Foldaway Tables

We have looked at the option for purchasing Foldaway tables for the purpose of putting them into youth clubs and schools. When we can secure some places, we will order them and have them delivered.

Introduction of SQ Handicap and Training Program

I was involved in a Zoom chat with Wayne and Terry Griffiths and a number of other coaches in Australia for the purpose of learning all about the SQ Handicap and Training System that has been in use in the Hong Kong Sports Institute for nearly 10 years. It is a program that can provide a score out of 100 that will indicate your overall ability in snooker from kid's level, Amateur and all the way up to Professional level. You have routines that must be attempted, and all results continuously show your current status and score.

It is a fantastic tool for players and coaches and is being introduced all around the world.

I am very keen to become a qualified SQ coach and begin to implement this program into NSW.
